

State Affiliate Network

The Digital Learning Collaborative is the leading community of professional K-12 digital learning, online, hybrid and blended learning professionals in the US. The DLC offers a wealth of information, programming, conferences, webinars, and member gatherings, focused on best practices, innovations, and policy developments across all the dimensions of K-12 digital learning.

DLC state affiliates include organizations that helped pioneer comprehensive digital learning programs for the past two decades and newer statewide programs just building up their capacities. State Affiliates enjoy a myriad of benefits from their annual membership in the DLC and play indispensable roles in informing other digital learning school leaders across the country on what their state is doing to evolve digital learning solutions.

Value Proposition and Benefits

Knowledge & Learning Community

Enlarge your network to better connect to the full system of organizations working in digital learning across the country.

Status

DLC State Affiliate raises your profile as being a nexus influencer in your state and nationally. You will connect with other leaders contributing and receiving knowledge from this learning community.

DLC BENEFITS

THE DLC PROVIDES THE FOLLOWING BENEFITS:

- Members-only webinars and associated online communities on topics including policy, research, and program design.
- Discuss and set DLC strategy, and issues of importance to the field, via monthly Executive Committee calls and the annual in-person 2-day Executive Committee meeting.
- Provide guidance on the state profile on the DLC website; we work with each affiliate to be the go-to information source for the state.
- We share affiliate activities with the broader DLC membership and network
- Associated benefits of a Standard Individual Membership to ten of your staff.

STATE VOICE

DLC State Affiliates provide the voice of their state within the DLC community. The community collaborates on strategies, studies, and outreach around the common cause of developing highly effective digital learning programs.

State Affiliates join monthly Executive Committee virtual meetings and webinars and an annual, in person retreat where they share progress and innovations they're making within their state on advancing digital learning solutions. State Affiliates also receive the support of their fellow affiliates on strategies and best practices for overcoming challenges they may encounter within their state such as policy or funding barriers.

STATE PROFILES

State Affiliates play key leadership roles within the DLC and nationally by representing their state and collaborating with the DLC staff to produce profiles of all 50 states. Federal and State Department of Education policy and decision makers, district administrators, educational technology companies, and researchers use the annual DLC State Profiles to inform themselves on the digital learning landscape across the US. DLC State Affiliates play a crucial supporting role in helping us gather and represent profile data.
